The time for gathering votes is getting short. You have only until 10 p. m. Wednesday to gather in the subscriptions which mean votes to you and the winning of your portion of the \$2500 prizes the Dispatch is going to award to twenty ladies of the Northland.

Starting with today the regular voting schedule went into effect again as announced in Tuesday and Wednesday's papers and will remain unchanged until the close of the contest, 10 p. m. Wednesday. Now bear this in mind, because if you are anticipating any change in the vote schedule between now and the close of the contest you are doomed to disappointment. We have said right along that the triple vote offer was the best of the contest and that positively a less number of votes would be issued on all subscriptions after 10 p. m., June 22. There will be, as the regular vote schedule is in effect and will remain so until the end of the contest.

### CONFEREES ARE UNABLE TO AGREE

Differ on Hughes Amendment to Sundry Civil Bill.

#### LIVELY TIME IN THE HOUSE

Expected When the Provision Exempting Labor Unions From the Operation of the Anti-Trust Act Comes Up for Consideration—Administration Interested in Fate of the Supply Measure.

Washington, June 23.—There will be a lively session in the house when the Hughes amendment to the sundry civil bill exempting labor unions from the operations of the anti-trust act comes up for consideration. This amendment was discussed at a meeting of the house and senate conferees. The senate conferees announced that the Hughes amendment was objectionable in that it sought to exempt one class of citizens from the operation of a law. The house conferees directed attention to the fact that they were bound by the action of the house to stand out for the adoption of the amendment. The conferees on the part of the house will inform that body that there is no possibility of an agreement on the sundry civil bill unless the house recedes on the Hughes amendment. Vote will then be taken on it. If the house should again instruct its conferees to insist on the Hughes amendment it is predicted that the session will either be prolonged or that the sundry civil bill will fail of passage.

There is one provision in the measure in which the administration is very much interested. That is the one appropriating \$250,000 for the tariff board and enlarging the powers of that body. This section of the bill has

been approved by a number of state conventions, including the Minnesota Republican convention held in St. Paul.

It is regarded as an important part of the Taft legislative programme. The bill is the biggest supply bill, carrying \$127,000,000, providing funds for public works of various descriptions. Representative Tawney expressed the belief that unless the senate conferees accept or the house recedes on the Hughes amendment, this session will be prolonged by several days. He is very much opposed to permitting a supply measure of this importance failing by the wayside.

### WANT INQUIRY INTO A TRUST

Organized Labor Demands That Investigation Be Made.

#### MAKING STRENUOUS EFFORT

Labor Leaders Endeavoring to Have Congress Create a Special Committee to Inquire Into the Activities of the United States Steel Corporation. Claim Trust Operates as a Combination in Restraint of Trade.

Washington, June 23.—Organized labor is making a strenuous effort to force the house to create a special committee to inquire into the activities of the United States Steel corporation. A threat has been made that if such an inquiry is not ordered that certain Republicans who are candidates for re-election will be fought by labor at the polls. Samuel Gompers, president of the American Federation of Labor, organized the campaign that is being waged to force a congress inquiry into the operations of the steel trust.

Two representatives of labor and an officer of the Anti-Trust league appeared at the Capitol to confer with members of the house committee on rules to ascertain what action that committee intends to take on the Stanley resolution, which is aimed at the steel trust. The delegation was composed of Henry J. Shulteis of the telegraphers' union, Arthur Holder, who represented Mr. Gompers, and Henry B. Martin, secretary of the Anti-Trust league.

The men named conferred with every member of the rules committee. They reported that Messrs. Underwood of Alabama, Clark of Missouri, Fitzgerald of New York and Dixon of Indiana, the Democratic members, were ready to report the Stanley resolution. Representatives Boutell of Illinois, Smith of Iowa, Lawrence of Massachusetts and Smith of California, Republicans, announced a willingness to accord a hearing on the resolution. The committee was unable to locate Representative Passett, another Republican member of the committee. Representative John Dalzell of Pennsylvania, chairman of the rules committee, told the labor delegation that he didn't favor the Stanley resolution, and that he would not call a meeting for its consideration. He said further that the committee had adjourned for the session.

Will Petition the Majority.

At a meeting of the labor leaders it was decided to petition those of the rules committee constituting a majority who are willing to accord a hearing on the Stanley resolution to ignore the mandate of Chairman Dalzell. It is an unusual proceeding for a house committee to be assembled without call of the chairman, and if the majority takes the bit in its teeth in this case there is bound to be a merry time in the house should the steel trust resolution get before that body.

The labor leaders have decided to start a back fire on Mr. Dalzell in an effort to induce him to reconsider his decision.

The Stanley resolution is sweeping in its terms. It charges, among other things, that the steel corporation does not manufacture steel; that it is a holding company pure and simple, and that, as such, it is an obnoxious to the anti-trust law as was the Northern Securities company, which was dissolved by decree of the United States supreme court.

The resolution further alleges that the steel corporation works in cooperation with the Pennsylvania railroad and certain steel companies under an agreement that tends to suppress competition.

It calls for the appointment of a committee of nine members, who are directed, as an incident of the investigation, to ascertain whether the steel trust had anything to do with the financial panics of 1903 and 1907.

Mr. Gompers and Representative Stanley of Kentucky, the author of the resolution, assert they have information that the steel trust operates as a combination in restraint of trade. They say that if the rules committee gives them a hearing that they will produce evidence tending to support their contention.

#### KILLED BY HIS NEIGHBOR

South Dakota Ranchman Shot in Revolver Duel.

Belle Fourche, S. D., June 23.—Bad feeling of some years' standing flamed into a fatal duel with revolvers at the Arpan ranch, north of here, in which Louis Arpan, thirty years old, a well to do rancher, was instantly killed by his neighbor, A. E. Strumbaugh.

The men quarrelled over a fence boundary and Arpan, it is said, fired at his rival and missed, being riddled with bullets from the older man's revolver.

Meets Accidental Death.

Sturgis, S. D., June 23.—John Porter met with an accident which resulted in his death. He was branding horses when one jumped against a pole, breaking it and hurling a portion upon Porter, breaking his skull.

MISS JANE ADDAMS.  
First Woman to Be  
Honored by Yale.

J. J. HILL AND JANE ADDAMS

Railroad Man and Chicago Woman Honored by Yale.

New Haven, Conn., June 23.—The first woman to be honored by Yale received the degree of master of arts in connection with 299th commencement at the famous university. Jane Addams, founder of Hull House in Chicago, was the recipient and in conferring the honor, which was establishing a precedent in the history of the college, Professor Perrin paid a glowing tribute to the work for humanity performed by Miss Addams.

### MEASURE NOW UP TO THE PRESIDENT

Postal Savings Bank Bill Through Congress.

Washington, June 23.—After voting down several amendments, the senate decided, 44 to 25, to concur in the house amendments to the postal savings bill, and thus took the last legislative step necessary to the establishment of a postal savings bank system in the United States. The measure was included in the administration schedule, and its passage marks another triumph for President Taft.

In accordance with the programme agreed upon the voting began at 5 o'clock and the bill was passed a quarter of an hour afterwards. Most of the progressive Republicans joined with the regulars in supporting the measure in the final action on it, but Senators Brewster, Cummings and La Follette refused to yield and cast their ballots in the negative with the Democrats. Senator Chamberlain cast the only Democratic vote for the bill.

The postal bank bill, as it goes to President Taft, provides for the designation of postoffices as postal savings depositories. The opening of such depositories is left to the discretion of a board of three trustees, consisting of the postmaster general, the secretary of the treasury and the attorney general. This board is given complete control of the depositories and of their funds. As it will require considerable time for the board to prepare its regulations, it is impossible at this time to predict when the postal banking system will be in operation. In those depositories any person over ten years of age may make deposits of funds amounting to \$1 or multiples of that amount. Pass books will be issued to depositors and interest allowed at the rate of 2 per cent per annum. No person is to be permitted to deposit more than \$100 in any month, nor to be allowed to have exceeding \$500 to his credit at any time. The withdrawal of funds is to be permitted at any time.

The postal savings funds thus accumulated are to be placed in state and national banks in the communities in which the deposits are made and the banks are to be required to pay 2 1/2 per cent interest.

### IN THE WAKE OF THE HOT WAVE

#### GOOD ROADS ASSOCIATION

That of North Dakota Holds Convention at Fargo.

Fargo, N. D., June 23.—The North Dakota Good Roads association met here for a two days' convention. The sessions are being held at the Armory of the North Dakota agricultural college, and the road making tests are under the supervision of a representative of the department from Washington.

There is a large attendance and unusual enthusiasm is shown. One of the most encouraging features of the meeting is the fact that so many road overseers and county commissioners are in attendance. Under the present law they are men who have most to do with road construction in North Dakota. This is the third annual session.

Mayor Lovell welcomed the delegates to Fargo and assured the visitors of co-operation of the people of this city and state in the movement for better roads. A. I. Hunter of Grand Forks, president of the state association, made a response in which he outlined the plans of the association. S. Johnson of Bismarck, legislative librarian, gave the association a summary of all good roads legislation by this and other states, calling attention to the salient features of the different laws. His address was very comprehensive and gave the delegates a better conception of the possibilities of the work.

There was general discussion and appointment of committees.

The first address of the afternoon was by Governor Burke and he was followed by George W. Cooley, state engineer of Minnesota. The afternoon programme was concluded with an address by S. R. Cox of Arcola, Ill., on the method of making good roads.

Log Roller Badly Injured.

In addition to these Joseph Radunz, twenty years old, champion log roller of Dutchtown, near Stillwater, is near death in a Stillwater hospital. In company with a number of other young men employed at the St. Croix boom he had gone, as was his custom nightly, to the high railroad bridge at Dutchtown to catch whatever breeze was blowing. A special engine bound for White Bear ran over him after he had fallen asleep on the tracks and cut off his leg. It is feared the injury may result in death.

Hot and dry weather has developed dangerous brush and forest fires on the Mesabi and Vermillion ranges. Back firing is going on at Virginia to prevent the flames from the forest from setting fire to the big lumber plant and the city. Three miles south and nine miles northeast of Hibbing there are fires of considerable area.

A vast amount of timber is burning on the Vermillion range south of Ely. The safety of homesteaders' families in isolated sections is creating some alarm. Panes of glass in railroad passenger coaches were cracked by the intense heat from the adjacent fires at Allen Junction. Settlers on Birch lake and White Iron are endangered.

Forest fires were fought off from Wausau, Wis., by townspeople there. The southwest limits of that city have been threatened for several days.

During a thunderstorm at Erskine, Minn., lightning struck the Northland Elevator company's elevator, completely destroying it and 1,800 bushels of grain stored there. The Soo depot caught fire several times. The total loss is \$13,000.

Reports indicate a rain area gradually working out of the far Northwest and spreading over the states so long imperilled by drought. Mussel Shell valley in Montana and all points available along the line of the St. Paul railroad report the fall of sufficient moisture within the past few days to give a bumper crop of wheat and other small grains. Most of the grain about Glasgow, Mont., has completely recovered from the hot winds. Glasgow also reports a good rain.

Thieves Rob Jewelry Store.

Montezuma, Ia., June 15.—Several hundred dollars worth of jewelry was stolen by unknown thieves when the store of L. A. Bryan, in the postoffice, was entered. The thieves made way with five watches, twenty-two rings and several other articles of jewelry.

## RAIN PROMISED

The Homeopathic Dose of Rain of  
Yesterday May be Repeated  
Today

The homeopathic dose of rain which  
was prescribed for and gratefully re-  
ceived by the city yesterday may be  
repeated today.

City Clerk V. N. Roderick has re-  
ceived the following bulletin from  
the weather department, a depart-  
ment always reliable and accurate in  
its forecasts. It states: "Partly  
cloudy with showers late tonight or  
Friday. Cooler in west portion."

The heat yesterday resembled the  
temperature of a boiler shop or blast  
furnace in operation. No heat pros-  
trations have been reported. The ice  
cream, palm leaf fan, lemonade and  
gin fizz season is on in full blast.  
Some of the draymen will invest in  
bonnets for their horses.

Strawberries are drying up and we  
will be short on strawberry short  
cake. Peek-a-boo shirt waists, open  
work stockings, hammocks and ice  
cream freezers find a ready sale.

The man who said, "Is it hot  
enough for you?" was nearly killed  
by an enraged population.

Delegates returning from the re-  
publican state convention say it was  
a very warm session. Several air  
ships flew higher in the state con-  
vention than Glen Curtis and the  
other experts at the aviation meet-  
ing.

At St. Cloud they're offering  
prayers in the churches for rain, for  
this drought is a serious question.

Marvelous Discoveries  
mark the wonderful progress of the  
age. Air flights on heavy machines;  
telegrams without wires, terrible  
war inventions to kill men, and that  
wonder of wonders, Dr. King's New  
Discovery—to save life when threat-  
ened by coughs, colds, la grippe, as-  
thma, croup, bronchitis, hemorrhages,  
hay fever and whooping cough or  
lung trouble. For all bronchial af-  
fections it has no equal. It relieves  
instantly. Its the surest cure.  
James M. Black, of Asheville, N. C.,  
R. R. No. 4, writes it cured him of  
an obstinate cough after all other

These Two Self Styled Bishops of a  
"Divine Catholic Church of  
America" Visit Brainerd

Bishop Schrader of San Francisco,  
and Bishop James Alexander Dowie,  
of Chicago, heads of a church styled  
by them as the "Divine Catholic  
church of America" arrived in the  
city this afternoon and left for Pe-  
quot.

Bishop Schrader, as he terms him-  
self, has a mother living at Pequot  
and will visit there a few days. He  
has a brother near Brainerd, Bishop  
James Alexander Dowie, as he styles  
himself, is a brother of the late Dr.  
John Alexander Dowie, the founder  
of Zion City, situated near Chicago,  
Ill. Schrader states that he and  
Dowie have united to form the new  
church as above named, "Zion City,"  
said Dowie, "has seen troubled times.  
I am making a claim now for the in-  
terests possessed by my late brother  
and expect to be successful in the  
litigation I have commenced. And  
when I preach, I preach like John Al-  
exander Dowie. I am not afraid to  
say what I think. From Pequot we  
shall return to Brainerd and then  
visit Chicago, New York and Boston."

Both of the so-called bishops would  
attract attention anywhere. They  
wear long dark flowing robes. Their  
hair is long and curling. Their  
beards resemble the one Methuselah  
boasted of. They are both fairly  
good speakers, although Dowie has  
a certain Teutonic accent.

They would make no admission as  
to whether they wished to extend the  
jurisdiction of their church to Brain-  
erd and vicinity, but appear to have  
come to Pequot and Brainerd simply  
for a short visit with friends or rela-  
tives.

After the reception the crowd was  
served with refreshments and a good  
social time was spent. A large con-  
tingent of the Brainerd City band  
also came over after the band con-  
cert down town and serenaded the  
couple adding much pleasure to the  
occasion. Mr. and Mrs. Hutchinson  
are well and favorably known in the  
city, Mr. Hutchinson being a machi-  
nist in the employ of the Northern  
Pacific railway and Mrs. Hutchinson  
a long time resident of Northeast  
Brainerd. The couple will make  
their residence at 421 Fourth Ave.,  
N. E., and will be at home to their  
friends next week.

## TO REGULATE USE OF RIVERS

Public Hearing July 20 at Grand Rapids to Regulate Navigation and Log Running

## LAUNCH CLUB SHOULD ATTEND

Now is the Time to Put in Demands Regarding Upper Mississippi River

A circular dated June 20th has been issued by Major Francis R. Shunk, of the United States Engineers' office with headquarters at St. Paul, stating that a public hearing will be held at Grand Rapids on July 20th to consider the promulgation of regulations for the governing of steamboat navigation and the running of logs in the Mississippi river between Grand Rapids and Brainerd. The moving factor in these proceedings is the Mississippi Transportation Co. whose application to the secretary of War for a ruling on these matters has led the department to issue a call for a public hearing. In order to facilitate the transaction of business it is earnestly requested that arguments and statements be presented in writing and in duplicate.

Brainerd should send a strong delegation, and our launch club and other interests using the river should be present at this hearing. It is not necessary to wait until July 20th before doing something. Petitions and statements can be drawn up now and the other necessary preparations made before the public hearing takes place.

## OSISIPEE

## WHAT PEOPLE SAY

Opinion Picked up at Random—Covering Matters of Interest in the City

P. B. Nettleton—"You just put me down as saying that if Roosevelt is asked to run again he will refuse the nomination. He has more power and can do more good as a free lance in journalism and politics than he can if elected to the presidency. John R. Mutch—"The other day I saw a small fire at the old mill yards of Howe's and I put it out with two buckets of water and saved the city a run by the department."

Henry I. Cohen—"This city should have a clean, tidy appearance. We should have metal cans on different street corners wherein waste paper could be thrown."

George R. West—"Those black bass I caught on Sunday were beauties. I tell you Minnesota is a good state to live in."

Fourteen different people in Deerwood—"Say, do you know that Ed. James has left town. He's going to be married."

N. P. Emil Carlson, of Deerwood—"Deerwood is getting sidewalks galore of the latest design. They're cement ones too."

James P. Vaughn—"I have been fighting a long time to get cement paving in the city."

Alderman C. H. Paine—"Charles City, Iowa, put in 17 blocks of cement paving last year."

M. T. Dunn—"That's a good ticket the republicans put up."

Charles D. Johnson—"Everybody says I am going to run for office and I guess it must be so."

Art. Hoak, of Minneapolis—"This is my first visit in your town. Brainerd is a pretty city."

St. Hall—"I am going to Nisswa but don't say a word about it."

Chief of Police Quinn—"It does seem a hard proposition to collect that dog license tax."

Albert Johnson of the Emil Johnson contracting firm of Minneapolis—"We are making good headway with the Beare building. The first concrete goes in today."

St. Peter, of the Grand—"Say, six-teen drops of rain fell yesterday while you were out of town."

George H. Gardner, back from the republican state convention—"It was a great convention and I believe the whole ticket will be elected."

New porter at the Ransford—"Say, things are getting so dry in this town there won't be enough water left for a drink."

Tim Twohey, president of the city council—"Last year we tried to have a meeting on the Fourth of July and we had to give it up. Nobody came around. This year we meet on the 5th."

City Clerk Roderick—"Isn't it hot today. The weather reports promise us rain but it doesn't seem to show up."

Sonny Coffrain, of the Ransford barber shop—"Next."

## First National Bank Block

Did you ever stop to realize that more city property has been sold in the last year than for the last ten years in Brainerd.

You may know what that means if you are a renter. You know too that if you buy a "home" reasonable that you have that satisfaction of not having to "move out" on thirty days notice as "house sold." And then again, one can make improvements from time to time and not notice the expense—only when you find a buyer—getting more than your rent free too.

Let me speak a word to the man that has a home and a little money that we have received our share of sales in city property and have no client that could not make money by selling now—we have the facts.

A home for some one situated on North side, an eight room house, bath, city water, cement basement, in fact everything to make it an ideal home. Barn. Right on the best street—Price \$2500.

Small house on south Sixth street, two lots, has been newly painted and papered throughout. Almost new condition.—Price \$650.

One of the finest little six room cottages on North-side is placed in our hands for short time. Modern except heat, and in good location with East frontage—Price \$2500.

A very neat six room house on south Sixth street, two lots with trees, nice lawn, etc., and in very fine condition throughout.—Price Cash \$700.

A corner of two lots and about a seven room house, barn, east frontage, good condition.—Price \$1100.

Small house in good condition on south Fifth street, offered for short time only.—Price \$550.

A nice little place on south Fifth street with plenty of room too. A bargain at \$650.

Here is a genuine "Bargain," an eight room house Northside, one and one half lots and in good condition inside; is worth \$1500, but owner living in California says sell, and am offering it for only about half what it is worth.—Price \$800.

I have a nice little place on East Norwood street and in good condition at only \$650.

Brick-veneer house of about six rooms and good lots, well worth three hundred more. We can offer this for a short time at only \$600.

It will pay you to look this up.

Two small cottages in Northeast Brainerd, is now renting for \$14.00 per month. Why not buy and rent one and have the use of the other for nothing. Come up and let me show you these and at the price is "cheap" Price \$1000.

We still have the eight room house on North-side, "close-in" three lots, east frontage, trees, etc. An ideal home for someone. Price \$3000.

Come up and let me show you this as these kind are scarce.

A very neat little cottage on north Fifth street, in good location and at only—Price \$1000.

House in good condition on south Sixth street, with east frontage, at only—Price \$1000.

House, barn, sheds, in good location in Northeast Brainerd, on corner with two lots, well worth looking up at the price.—Price \$1000.

Small house on Pine street South-east at only \$550.

If you have a house you wished sold or land either farm or mineral, come up and let us talk it over.

### FINDS TRUE BILLS AGAINST RAILROADS

Chicago Federal Grand Jury Returns Indictments.

Chicago, June 22.—The Illinois Central Railroad company, the Pennsylvania Railroad company, and the Pittsburg, Fort Wayne and Chicago roads were indicted by the federal grand jury here.

The Illinois Central is charged with violating the Elkins law in failing to observe its tariff on shipments of cabbage from Crystal Springs, Miss., and Roseland, La., to Chicago. It is alleged that the company's rate should have been based on an average weight per crate. That is to say, a crate shipped out of Roseland should have been charged as 125 pounds of freight. Sometimes the crate might weigh more, sometimes less. Instead, it is alleged that the road charged by the actual weight.

The other roads are charged with destroying way bills covering shipments of coke to the Illinois Steel company at South Chicago.

The investigation resulting in the indictments was begun at the request of the interstate commerce commission.

**The Sailors' Line.**  
"Pop, what is the line the sailors talk about?"  
"It is a certain degree which the ships cross in their voyages."  
"Oh! I always thought the line was where they hung the wash of the sea!"

### THE JOYS WE MISS.

How small a portion of our life it is that we really enjoy! In youth we are looking forward to things that are to come; in old age we are looking backward to things that are gone past; in manhood, although we appear indeed to be more occupied in things that are present, yet even that is too often absorbed in vague determinations to be vastly happy on some future day when we have time.—Colton.

### PINCHOT FLAYS BOTH PARTIES.

Delivers Address Before Roosevelt Club in St. Paul.

"CONGRESS FAVORS TRUSTS."

"It is a Greater Thing to Be a Good Citizen Than to Be a Good Republican or a Good Democrat," Former Forest Chief Declares.

St. Paul, June 11.—Gifford Pinchot delivered the following address before the Roosevelt club here:

Conservation has captured the nation. Its progress during the last twelve months is amazing. Official opposition to the conservation movement, wherever damage it has done or still threatens to the public interest, has vastly strengthened the grasp of conservation upon the minds and consciences of our people. Efforts to obscure or belittle the issue have served only to make it larger and clearer in the public estimation. The conservation movement cannot be checked by the baseless charge that it will prevent development or that every man who tells the plain truth is either a muckraker or a demagogue. It has taken firm hold on our national moral sense, and when an issue does that it has won.

The conservation issue is a moral issue, and the heart of it is this: For whose benefit shall our natural resources be conserved—for the benefit of us all or for the use and profit of the few? This truth is so obvious and the question itself so simple that the attitude toward conservation of any man in public or private life indicates his stand in the fight for public rights.

All monopoly rests on the unregulated control of natural resources and natural advantages, and such control by the special interests is impossible without the help of politics. The alliance between business and politics is the most dangerous thing in our political life. It is the snake that we must kill. The special interests must get out of politics or the American people will put them out of business. There is no third course.

Because the special interests are in politics we as a nation have lost confidence in congress. This is a serious statement to make, but it is true. It does not apply, of course, to the men who really represent their constituents and who are making so fine a fight for the conservation of self government. As soon as these men have won their battle and consolidated their victory confidence in congress will return.

**Work For the Few.**  
But in the meantime the people of the United States believe that as a whole the senate and the house no longer represent the voters by whom they were elected, but the special interests by whom they are controlled. They believe so because they have so often seen congress reject what the people desire and do instead what the interests demand. And of this there could be no better illustration than the tariff.

The tariff under the policy of protection was originally a means to raise the rate of wages. It has been made a tool to increase the cost of living. The wool schedule, professing to protect the wool grower, is found to result in sacrificing grower and consumer alike to one of the most rapacious of trusts.

The cotton cloth schedule was increased in the face of the uncontradicted public testimony of the manufacturers themselves that it ought to remain unchanged.

The steel trust demanded and by a trick secured an indefensible increase in the tariff on structural steel.

The sugar trust stole from the government like a petty thief, yet congress by means of a dishonest schedule continues to protect it in bleeding the public.

At the very time the duties on manufactured rubber were raised the leaders of the senate, in company with the Guggenheim syndicate, was organizing an international rubber trust, whose charter made it also a holding company for the coal and copper deposits of the whole world.

For a dozen years the demand of the nation for the pure food and drug bill was outweighed in congress by the interests which asserted their right to poison the people for a profit.

Congress refused to authorize the preparation of a great plan of waterway development in the general interest and for ten years has declined to pass the Appalachian and White mountain national forest bill, although the people are practically unanimous for both.

The whole nation is in favor of protecting the coal and other natural resources in Alaska, yet the withdrawal bill, under the circumstances the one conservation bill most needed for the purpose, is still in danger. And, as for the general conservation movement, congress not only refused to help it on, but tried to forbid any progress without its help. Fortunately for us all, in this attempt it has utterly failed.

**Lose Confidence in Congress.**  
This loss of confidence in congress is a matter for deep concern to every thinking American. It has not come quickly or without good reason. Every man who knows congress well knows the names of senators and members who betray the people they were elected to represent and knows also the

**How Do You Take Your Defeat?**  
The way a man takes his defeat is a pretty good test of his caliber. The strong man uses his failures for stepping stones instead of stumbling blocks. I know a very successful young man who has made it a rule of his life to use every misfortune that comes to him as a point of departure for something better. He has had losses and misfortunes which would have crushed most men, but they only stiffened his resolution, nerve him up for a new start. They only make him more determined to conquer the next time.—Success Magazine.

LEE O'NEIL BROWNE.

Rests His Case Without  
Going on Witness Stand.

### BROWNE RESTS HIS CASE

Defendant Does Not Testify in His Own Behalf.

Chicago, June 22.—Precluding the possibility of the defendant's going upon the stand in his own behalf, counsel say, and shutting out all testimony that Senator William Lorimer might have to offer in denial of the charge that his seat in the United States senate was purchased, lawyers for Lee O'Neil Browne abruptly rested their case in the criminal court here.

It is said that Browne's counsel believe their case stands or falls upon whether the jury is willing to accept the testimony of Representative Charles A. White, who made the first confession and delivered the principal testimony in the alleged bribery scandal. It is hoped by the defense that the jury will look upon White's testimony as doubtful.

Attorney W. S. Forrest, who has led the defense of Browne, has insisted from the beginning that he is not concerned materially over the outcome in the criminal court; that he has made out a legal case for his client to stand on in a higher court.

### A "Jump Short" Pie.

A clergyman in Lincolnshire entered a parishioner's cottage the other day about dinner time and was invited to share the family meal, which consisted of a pie of savory odor. "This is a very nice pie," said the visitor. "What do you call it?" "We call it 'jump short' pie, sir." "But it tastes very much like lamb. Why do you give it such an odd name?" "Well, sir," said the host, "it is lamb. You see, sir, the young lambs in the marshes try to jump over the ditches, and some of them jump short and tumble in and get drowned. Then we fish them out, and my old woman puts them into a pie. May I give you another helping, sir?"—Dundee Advertiser.

### A Woman's Great Idea

is how to make herself attractive. But, without health, it is hard for her to be lovely in face, form or temper. A weak, sickly woman will be nervous and irritable. Constipation and kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. But Electric Bitters always prove a godsend to women who want health, beauty and friends. They regulate Stomach, Liver and Kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion, good health. Try them. 50c at all druggists. ttw

**Run Down?**  
Ayer's Sarsaparilla is a tonic. It does not stimulate. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic. Ask your doctor all about this.

### AN UP-TO-DATE STOVE

Do you realize there is no longer any reason why you should use a coal range? Oil is cheaper than coal; it is lighter and easier to handle, and gives an intense heat. Provided you have the right stove, oil is more economical, cleaner and less trouble. Have you seen the

### New Perfection WICK BLUE FLAME Oil Cook-stove

The accompanying illustration gives you only a rough idea of its appearance. You really can't appreciate it until you either use it yourself, or talk to someone who has used it. It does everything that a coal range will do—except heat the room. The New Perfection Oil Cook-stove will do anything, from heating a kettle of water to cooking a course dinner, but it won't heat a room. It doesn't "smell," it doesn't smoke. It can't get out of order. Light it and it is ready. Turn it down and it is out. Only a woman who knows the trouble of carrying coal and cooking in a hot kitchen can appreciate what it means to have a clean, perfect stove that will cook anything, boil, bake or roast, and yet won't heat the kitchen. How is it done? The flame is controlled in turquoise-blue enamel chimneys, and directed against the bottom of pot, pan, kettle or oven, and only there. The flame operates exactly where it is needed—and nowhere else. With this stove your kitchen is cool.

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."
